RAID 0,1,5,6 & 10

REDUNDANT POWER

VERTICAL MARKETS:

The Aurora Series was created specifically for the under 50-camera marketplace, but scales beyond 200. Perfect for any budget conscious project that needs great protection.

The Aurora Server Series fills a void in the small project market: economical, enterprise storage systems. It brings features like redundant power, RAID controller w/4GB of FBWC, server-grade CPU's with 10000 PassMark® rating, and a worldwide five-year on-site warranty. High-end features, while maintaining the price points required for the small project market. The Aurora systems alter the landscape on video recorders - in price and performance.
