

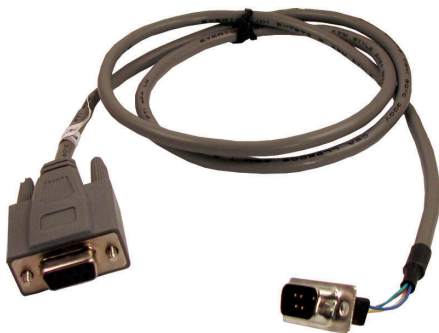

# MAP 5000 Serial Cable

www.boschsecurity.com

**BOSCH**

Invented for life

The MAP Serial Cable provides connection between the MAP DE Module and a transmission unit or the GPRS modem (ITS-MAP0008). It consists of a 1.6 m (5.25 ft), gray PVC-sheathed cable with a DB9 male terminal plug at one end and a DB9 female terminal socket at the other end.
